6.Old Jessore Road, Khulna, Khulna, Bangladesh 9100

Tel : 0088-041-725-027

Fax : 0088-041-721-810

Web: <http://www.marinefreshbd.com>

Marine Fresh Bangladesh specializes in exporting Shrimp and Seafood's mainly to USA, EU and Asian market.

Bangladesh is famous for 100% Origin Organic and Natural shrimp, is also paradise of wild catch and sea frozen seafood's. Bangladeshi shrimp is natural farming. Explain it details for Black Tiger 70% shrimp are caught (Seed Collect) from ocean when they are at tender/young age, than we preserve them floodplains for some days (culture) to become good size and shape. All floodplains are situated beside sea or shore are and connected with Ocean directly by river and canal and full fill up with sea water so the environment is like Ocean. Bangladeshi natural floodplains act as nutrient-rich nurseries for a large number of larva and juvenile fish species and more rich than Sea water, so no additional food is needed. We use no artificial food. No bio & intensive farm and hybrid shrimp are here, and we work with natural shrimp only. That's why Bangladeshi Origin BT shrimp is so famous in worldwide mainly Europe and USA.

Shrimp's Seed Collecting

Near 45 processing Factories in Khulna are world **standard** as **HCCAP, BRC, FDA** and **EU** Approval etc certified Our freezing style will be for Block, IQF & Semi IQF. Preserving temperature is in between naturally -18' Centigrade to -22' Centigrade.

In Bangladesh 2.2 Million people are involved directly with **fishing** and another **11 million people** are involved indirectly with this. Bangladesh has **580 Kilo Meters** (362 Miles) cost line, **total offshore area is 125,000 Sqr K.M** where occupying 70,000 square Kilo Meters for fishing. And **10,000 square Kilo Meters inland area** is covered with water like River (Mainly **54 long rivers** Shared with India with huge sub cannels), Floodplains (act as nutrient-rich nurseries for a large number of larva and juvenile fish species) and Water Bodies (Ponds , Beels and Oxbow lakes). Due this our sea fish is **rich** for its **Nutrition Factor, Mineral Resources, Appearance** and **Test**
